

STUDY CONSTRUCTION AT KIT

THE KIT DIFFERENCE

- This course is delivered by KIT, taught to Australian standards and is subject to on-going quality assurance checks. It builds the same skills, knowledge and attitudes as an Australian equivalent course.
- Our dedicated staffs are consistently up-skilled and trained by specialised short and long term Australian technical advisers.
- The KIT campus provides a friendly, safe and clean environment to learn in, with all the latest equipment for practical training.
- All students participate in relevant practical activities and learn work related technical skills.
- Students also learn core employability skills, computing skills and English language so that they are confident and work ready.

COURSE DURATION

- The Construction course is delivered in six terms.
- During the first term, all students also undertake a Vocational Preparation Course.

STUDYING: CERTIFICATE II IN CONSTRUCTION PATHWAYS
