

STUDY ENGLISH AT KIT

THE KIT DIFFERENCE

- This course is delivered by KIT and is subject to on-going quality assurance checks. It must meet the Australian VET Quality Framework standards for qualifications to be issued. The course is recognised in Australia and around the world.
- Our dedicated staff are consistently up-skilled and trained by specialised short and long-term Australian technical advisers.
- The KIT campus provides a friendly, safe and clean environment to learn in, with all the latest equipment for practical training.
- All students participate in relevant practical activities and learn work related technical skills.
- Students also learn core employability skills, computing skills and English.

COURSE DURATION

- During the first term, all students undertake a Vocational Preparation Course (VPC).
- All students learn English every term. The KIT Certificate in English Proficiency (KCEP) is currently delivered at three levels – Levels 2, 3 and 4.

STUDYING KIT CERTIFICATE IN ENGLISH PROFICIENCY

The course includes language appropriate for the particular industry and develops competence in speaking, listening, reading and writing.

Courses are delivered by TESOL qualified teachers.
