

## STUDY NURSING AT KIT

### THE KIT DIFFERENCE

- This course is delivered by KIT, taught to Australian standards and is subject to on-going quality assurance checks. It builds the same skills, knowledge and attitudes as a New Zealand or Australian equivalent course.
- Our dedicated staff are consistently up-skilled and trained by specialised short and long term New Zealand and Australian technical consultants and advisors.
- The KIT campus provides a friendly, safe and clean environment to learn in, with all the latest equipment for practical training.
- All students participate in relevant practical activities and learn work related technical skills.
- Students also learn core employability skills, computing skills and English language so that they are confident and work ready.

### COURSE DURATION/FEEES

- During first term, all students undertake an English language program and some core units.
- The Diploma of Nursing program is delivered over six semesters (three years). No fee required in Nursing.

### STUDYING DIPLOMA IN NURSING

Studying nursing at KIT will provide a pathway to employment in nursing roles.
