KIT KIRIBATI INSTITUTE OF TECHNOLOGY

STUDYING INFORMATION TECHNOLOGY AT KIT

THE KIT DIFFERENCE

- This course is delivered by KIT, taught to Australian standards and is subject to on-going quality assurance checks. It builds the same skills, knowledge and attitudes as an Australian equivalent course.
- Our dedicated staff are consistently up-skilled and trained by specialised short and long-term Australian advisors.
- The KIT campus provides a friendly, safe and clean environment in which to learn, with all the latest equipment for training.
- All students participate in relevant practical activities and learn work related skills to enhance their employability.
- Students also learn core employability skills, computing skills and English language so that they are confident and work ready.

COURSE DURATION/FEES

- The IT Certificate III course is delivered over four terms, with classes in the day for fulltime students.
- $150 per semester
- There are limited number of government funded positions available for this course for those with a proven high test score.
